DISEASE INVESTIGATION LABORATORY DEPARTMENT OF ANIMAL HUSBANDRY HIMACHAL PRADESH, SHIMLA-171 005.

NECROPSY REPORT-(Livestock)

| No | | Date |
|--|-------------------------------|----------------------------|
| Owner's name and Address | | |
| | | |
| Identification of Animal: | * | Sex |
| Date and time of Death Date and time of Post-morte Status of Rigor mortis Conducted by | em | |
| Clinical History | | Salient Autopsy findings * |
| | | * |
| | | * |
| Diagnosis | | Autopsy Diagnosis |
| Materials Collected: Microbiology: Histopathology: Parasitology: Toxicology: Any other: | | |
| Microbiological/Parasitolog | ical/Toxicological Observatio | ons: |
| Histopathological Observati | ons: | |
| Final Diagnosis: | | Signature with Name. |

EXTERNAL EXAMINATION

General condition of the carcass Injuries (position and nature of injuries) State of natural orifices

INTERNAL EXAMINATION

- 1. Respiratory System: (Larynx, trachea, bronchi, lymph nodes, lungs and pleura)
- 2. Heart: (Pericardium, epicardium, myocardium, endocardium, valves and coronary vessels)
- 3. Aorta, Blood and lymph vessels
- 4. Spleen
- 5. Liver: (Gall bladder and bile duct)
- 6. Endocrine glands: (Thyroid, parathyroid, thymus, pituitary, pancreas and adrenals)
- 7. Gastrointestinal tract: (Mouth, tongue, oesophagus, rumen, reticulum, omasum, abomasums/stomach, small intestine, large intestine, anus)
- 8. Urinary system: (Kidneys, ureters, bladder and urethra)
- 9. Head: (Brain, meninges)
- 10. Spinal cord
- 11. Bone: (marrow and joints)
- 12. Musculature

Opinion: (As to the cause and manner of death)
